Hexaware Achieves Guidewire Migration Acceleration Specialization

Iselin, New Jersey, U.S., 26th June, 2025: Hexaware Technologies [NSE: HEXT], today announced that it has been awarded the **Guidewire Migration Acceleration specialization** as part of the Guidewire PartnerConnect program. Hexaware is a Guidewire PartnerConnect Consulting partner at the Advantage level and works with Guidewire in North America, EMEA, and APAC.

To achieve the Migration Acceleration specialization, partners must demonstrate the ability to lower customers' costs of transitioning to the cloud, accelerate implementation timeframes, and improve delivery quality and predictability. They also need to adhere to cloud standards and align with Guidewire's Delivery Services and Sales organizations. This specialization is a global badge and is awarded by invitation only. Specializations are both regionally and globally based and require partners to demonstrate skills, knowledge, and competency in a particular Guidewire product or solution area. The achievement of specializations gives insurers more clarity and insight into which partners have proven capabilities in a region. Additionally, partners with specializations can better promote their capabilities across Guidewire products and solutions.

"We congratulate Hexaware on achieving the Migration Acceleration specialization. We are pleased to recognize their expertise, proven capabilities, and commitment to drive down customers' costs and implementation timeframes, and we look forward to continuing our work together to contribute to the success of our shared customers," said **Molly Black, Senior Director, Partner Programs and Enablement, Alliances, Guidewire Software**.

"We are delighted to achieve the Migration Acceleration specialization. This recognition highlights our dedication to leveraging Guidewire's platform to deliver seamless and efficient migration solutions for our customers. Our continued investment in building accelerators ensures certainty of outcomes for customers looking to migrate to Guidewire Cloud. We greatly value our partnership with Guidewire and are excited to continue driving success for our shared clients," said **Shreyas Vasanth Kumar, Senior Vice President, Hexaware Technologies**.

Please find more information about Guidewire specializations on the [Guidewire website](#).
