Dear Sir,

Sub: Press Release

Please find enclosed Press Release on **Hexaware Named an Emerging Leader in the Emerging Market Quadrant of the 2025 Gartner® Innovation Guide for Generative AI Consulting and Implementation Services.**

This information will also be hosted on the Company's website at www.hexaware.com.

Kindly take the same on record.

Thanking you,

Yours faithfully,
For **HEXAWARE TECHNOLOGIES LIMITED**

Gunjan Methi
Company Secretary

Encl.: as above.

HEXAWARE

Hexaware Named an Emerging Leader in the Emerging Market Quadrant of the 2025 Gartner® Innovation Guide for Generative AI Consulting and Implementation Services

We believe that this recognition highlights Hexaware's ability to convert generative-AI pilots into enterprise-scale solutions that create measurable business value.

Mumbai, July 25th 2025: Hexaware Technologies, a global provider of IT solutions and consulting services, has been positioned as an Emerging Leader in in the Emerging Market Quadrant of the 2025 Gartner® Innovation Guide for Generative AI Consulting and Implementation Services.

The eMQ, introduced in 2024, delivers rolling, data-driven updates on vendors in fast-moving technology sectors. Providers are mapped on two axes—current features and future potential—helping enterprises evaluate partners in dynamic markets such as generative AI.

Across the industry, the priority has shifted from experimentation to scale: organizations want production-ready GenAI that delivers quantifiable impact without compromising security or compliance.

"We've built a cloud-agnostic GenAI fabric that fuses modular micro-services, zero-trust security, and rigorous guardrails for fairness and transparency," said Jith Mundakkal, Chief Technology Officer & Head of GenAI CoE, Delivery & Solutioning, Hexaware. "It lets enterprises deploy LLM workloads at scale, whether on public cloud, private clusters, or edge, while keeping data sovereign and operations auditable."

Mehdi Goodarzi, SVP & Global Head of GenAI Consulting, Practice & GTM, Hexaware, said, "Our clients are looking for a clear path from vision to value. We start by co-creating use-case roadmaps, back them with industry starter kits, and secure stakeholder buy-in with hard ROI projections. That business-first discipline is what moves generative-AI programs from board-room excitement to bottom-line results."

Hexaware's GenAI practice brings together industry-specific starter kits, secure accelerators, and a Responsible AI framework that covers consulting, build, and managed-service phases. *Explore the complete portfolio at* hexaware.com/offerings/generative-ai.
